## EDUCATION

---

- **Florida Polytechnic University**

*Bachelor of Science in Data Science*

Lakeland, FL

*Aug. 2016 – May 2020*

## EXPERIENCE

---

- **Florida Polytechnic University**

*Research Assistant*

Lakeland, FL

*Mar 2019 - Present*

- **Data Analysis:** Working under Dr. Jim Dewey to assess the educational and financial impacts of charter schools in Florida. Constructed models to support an academic paper in R and Stata.
- **Data Cleaning:** Accountable for maintaining a reliable and up-to-date dataset. Worked with several government data sources using vectorization, unsupervised learning, fuzzy string matching, and Google Cloud Platform.
- **Metric Creation:** Implemented various measures of charter school competition using high-performance linear algebra.

- **Polk County Learning Resource Center**

*Academic Tutor*

Lakeland, FL

*Sep. 2019 - Jun. 2021*

- **Academic Tutor:** Assisted middle-school and high-school aged kids with academic fundamentals and personal growth. Cultivated a positive reputation through dedication to more than 15 students.

- **STMicroelectronics**

*IoT Developer*

Remote

*Dec. 2020 - Feb. 2021*

- **Alexa Integration:** Integrated the STM32 Discovery Board with AWS IOT, Lambda, and Amazon Alexa Frameworks. Deployed a cloud-based data pipeline and Alexa skills.
- **Documentation:** Provided detailed documentation for reproducibility.

- **Refresco**

*Data Analyst*

Lakeland, FL

*Oct. 2019 - May. 2020*

- **Leadership:** Led a team of five to diagnose manufacturing inefficiencies using sensor data.
- **Data Analysis:** Produced a cost-benefit analysis to guide business decisions, with an estimated savings of \$100,000. Provided compelling data visualizations, KPI-based calculations, and literature review.

- **Grizzard Real Estate**

*Freelance Software Developer*

The Villages, FL

*Jun. - Aug. 2017*

- **Back-end Software Development:** Contacted by Ira Miller. Collaborated with a front-end developer to build a web platform for viewing local open houses. Developed database and server using MySQL and PHP.

## TECHNICAL EXPERIENCE

---

- **Languages:** R, Python, SQL, C, C++, Java, Javascript, Swift, PHP, Julia, HTML, CSS.
- **Technologies:** AWS, OpenCV, TensorFlow, Google Cloud Platform, Docker, Stata, MATLAB, Tableau, Excel, SSMS, Git, LaTeX.
- **Coursework:** Computational Linear Algebra, Machine Learning, Data Warehousing, Data and Text Mining, Operations Research, Data Structures and Algorithms, Time-Series Modeling and Forecasting, Database II, Economic Analysis for Technologists, Computer Architecture, Statistics.
