EDUCATION

• Florida Polytechnic University

Lakeland, FL

Bachelor of Science in Data Science, concentration in Big Data Analytics

Aug. 2016 - May 2020

• Certifications

Google Data Analytics Professional Certificate

Experience

• Florida Polytechnic University

Lakeland, FL

Research Assistant

Mar. 2019 - Present

- o Data Analytics: Working under Dr. Jim Dewey to assess the educational and financial impacts of charter schools in Florida. Constructed models to support an academic paper in R and Stata.
- o Data Engineering: Accountable for maintaining a reliable and up-to-date dataset. Worked with several government data sources using vectorization, unsupervised learning, fuzzy string matching, and Google Cloud Platform.
- o Linear Algebra Implementation: Implemented production-level code for various measures of charter school competition using high-performance linear algebra.

Music Association Treasurer

Mar. 2019 - Mar. 2020

o Treasurer: Highly active club member liable for RSO finances, inventory, and documentation. Facilitated equipment purchases as well as the funding of a concert attended by hundreds of people.

Polk County Learning Resource Center

Lakeland, FL

Academic Tutor

Sep. 2019 - Jun. 2021

• Academic Tutor: Assisted middle-school and high-school aged kids with academic fundamentals and personal growth. Cultivated a positive reputation through dedication to more than 15 students.

STMicroelectronics Remote

IoT Developer

Dec. 2020 - Feb. 2021

- Alexa Integration: Integrated the STM32 Discovery Board with AWS IOT, Lambda, and Amazon Alexa Frameworks. Deployed a cloud-based data pipeline, dashboard, and Alexa skills.
- Documentation: Provided detailed documentation for reproducibility, used by numerous teams across the company.

Refresco Lakeland, FL

Data Scientist

Oct. 2019 - May. 2020

- Leadership: Led a team of five to diagnose manufacturing inefficiencies using sensor data.
- Data Analysis: Produced a cost-benefit analysis to guide business decisions, with an estimated savings of \$100,000. Provided as data visualizations, KPI-based calculations, literature review, and other BI services.

ERA Grizzard Real Estate

The Villages, FL

Freelance Software Developer Jun. - Aug. 2017

• Back-end Software Development: Contacted by Ira Miller. Collaborated with a front-end developer to build a web platform for viewing local open houses. Developed database and server using mySQL and PHP.

Technical Experience

- Languages: R, Python, SQL, C, C++, Java, Javascript, Swift, Julia, HTML, SCSS, PHP, Bash, PowerShell, Perl.
- Technologies: AWS, OpenCV, TensorFlow/Keras, Google Cloud Platform, Docker, Linux, Stata, MATLAB, Tableau, Excel, SSMS, Git, LaTeX.
- Coursework: Computational Linear Algebra, Machine Learning, Data Warehousing, Data and Text Mining, Operations Research, Data Structures and Algorithms, Time-Series Modeling and Forecasting, Database II, Economic Analysis for Technologists, Computer Architecture, Statistics.
